*Results not typical. Weight loss, muscle gain, lifestyle, and other results depicted in this publication reflect exceptional experiences of Isagenix Customers and should not be construed as typical or average. Results vary with individual effort, body composition, eating patterns, time, and other factors, such as genetic and physiological makeup. In a study performed in 2012 by University of Illinois at Chicago researchers, subjects lost an average of 9 pounds after 30 days on an Isagenix System. The subjects also had a greater level of adherence and had more consistent weight loss from week to week compared to subjects on a traditional diet.

Snack Bites

WHAT ARE SNACK BITES?

Snack Bites are conveniently packaged treats that make battling those cravings — especially when watching your calories — a cinch. Wholesome and packed with rich peanut butter and oats, these snacks are reminiscent of cookie dough happiness (who doesn't like to lick the bowl?).

WHY DO I NEED SNACK BITES?

Making sure you are consciously allocating calories and nutrition that your body needs and wants is a fabulous way to balance your food. But what about those cravings? Those little voices that whisper, "Hey, aren't you hungry?" Cravings aren't just in your imagination — they're backed by science. With Snack Bites on hand during a Cleanse Day or even a Shake Day, you'll show your goals who's boss.

HOW DO THEY WORK?

With 5 grams of protein and 100 calories per serving, these little pieces of pleasure were designed to stop hunger in its tracks. Just one snack crushes the cravings, leaves you guilt free, and sets you up to meet your Cleanse Day or Shake Day goals. Life is sweeter when you're satisfied.

Fuel your body to support muscle repair during the important post-workout window.

HEALTHY AGING

The whey protein in IsaLean® Shake, IsaLean PRO, and IsaPro® is pure, undenatured, and of the highest quality.

Drink More Plants: Isagenix plant-based shakes use whole-grain brown rice and pea protein. The amino acid profile is similar to that of whey or egg protein and is great for anyone with potential dairy allergies or intestinal issues or if you just love following a plant-based diet.

The Power of Three: Think of AMPED™ Tri-Release Protein as the team you want surrounding you when you give your workout your all, the people who each know when you need them. Fuel your body with not just one, but three different proteins for fast, medium, and slow amino acid release that works for you long after your workout.

Collagen Bone Broth

WHAT IS COLLAGEN BONE BROTH?

Isagenix Collagen Bone Broth is infused with 8 grams of high-quality collagen peptides and vitamin C. When taken regularly, both are crucial to producing collagen and boosting skin health for glowing, hydrated skin.[†]

WHY DO I NEED COLLAGEN BONE BROTH?

Collagen is the most abundant protein in our body. It's often described as the glue that holds us together. Our bodies' production of collagen starts to decline as early as our mid-20s, leaving us with both a physical change on the outside and decreased functionality on the inside. Now, you can nourish your body's collagen the best way we know how: by consuming it.[†]

HOW DOES IT WORK?

With Collagen Bone Broth, you can support healthy collagen production, resulting in hydrated skin and savory satisfaction on Cleanse Days. This helps maintain healthy skin, joints, muscles, and more. Just sip, stir, and serve it your way.[†]

WHAT'S IN COLLAGEN BONE BROTH?

Collagen Bone Broth is better than homemade without the hassle. No matter how you use it, whether mixed with hot water, as a soup base, or in your favorite recipes, it's what's inside that makes each serving so unique.

- Collagen peptides (types I and III).
- Vitamin C.
- Tri-amino acid complex.
- Bone broth protein.

IsaBiome Daily Digestive Health System

A Breakthrough in Better Digestive Health

WHAT IS ISABIOME?

IsaBiome™ is a breakthrough line of uniquely formulated supplements that consists of probiotics and enzymes to support your microbiome and better digestive health.

WHY DO I NEED ISABIOME?

There's a well-established link between your digestive health and overall wellness. Poor diet, increasing age, stress, and inadequate physical activity are all causes of digestive system problems, which consist of bloating, regularity issues, and general discomfort. Scientific studies have found that better digestive health can lead to better overall health and quality of life, and IsaBiome is designed to help support a healthier microbiome and digestive system personalized to your specific conventional or vegetarian diet.

HOW DOES IT WORK?

IsaBiome uses a two-step solution to deliver better digestive health. Our vegetarian- and conventional- diet digestive-enzyme formulas include blends of 13 or 15 enzymes, respectively, offering an immediate impact to help ease occasional bloating, support gut comfort, and optimize nutrient absorption.

Our vegetarian- and conventional-diet probiotics feature 25 billion CFUs (colony forming units, a measure of the amount of probiotics) of 10 or 11 clinically tested strains of friendly bacteria, respectively, to support a balanced digestive system, a healthier gut microbiome, and immune health.*

PERSONALIZED FOR CONVENTIONAL OR VEGETARIAN DIETS

WHY IS THE MICROBIOME SO IMPORTANT?

Your intestines are filled with trillions of microorganisms (bacteria) that make up your microbiome. Scientific studies over the years have shown how important gut bacteria is to supporting normal immune and intestinal function, as well as your overall health. **We rely on the good bacteria, like the probiotics found in IsaBiome, to crowd out harmful bacteria and help regulate digestion, metabolism, mood, and even our weight.** Think of your microbiome as a jungle and IsaBiome as the biology to help it flourish.

IsaKids Super Smoothie

WHAT IS ISAKIDS SUPER SMOOTHIE?

IsaKids® Super Smoothie is just that — a delicious super smoothie offered in two amazing flavors, Strawberry Blast and Ice Cream Cookie Crunch Flavor. It's packed with 10 grams of undenatured grass-fed protein, 22 vitamins and minerals, antioxidant vitamins A, C, and E, and vitamin D. The only thing missing? Artificial flavors and sweeteners.

WHY DO KIDS NEED ISAKIDS SUPER SMOOTHIE?

IsaKids Super Smoothie provides the right amount of nutrition kids need to help them grow. Kids love the taste, and parents love the nutrition. It takes a lot of energy to grow, and carbohydrates give growing bodies the fuel they need. Getting the right amount of carbohydrates in balance with other nutrients means the body can use protein for the important jobs that only protein can do: growing tall and building a strong body.

WHAT MAKES IT SO SUPER?

GREAT NUTRITION STARTS WITH QUALITY PROTEIN
IsaKids Super Smoothie is made with undenatured whey and milk protein sourced from grass-fed, pasture-raised cows that are not treated with hormones or routine antibiotics. It's high-quality protein in just the right amount for growing bodies balanced in proportion to other essential nutrients.

1 BAG PURCHASED = 1 MEAL DONATED. EVERY TIME YOU BUY ISAKIDS, YOU HELP US PROVIDE NUTRITION TO A KID IN NEED.

IsaPro and IsaPro Plant-Based Protein

WHAT IS ISAPRO?

The perfect boost to your IsaLean® Shake, a protein kick to your favorite recipe, or a post-workout protein on its own, IsaPro® is the ultimate protein source. It has 18 grams of pure, high-quality, undenatured whey protein concentrate or plant-based protein sourced from whole-grain brown rice and peas, depending on which version you choose.

WHY DO I NEED ISAPRO?

Extra protein is essential for anyone starting a weight loss or workout program, trying to break through a weight loss plateau, or dealing with muscle mass and function loss. When you need more protein, IsaPro is the perfect solution.

HOW DOES IT WORK?

Fueling your body with high-quality protein is an important step in building and maintaining lean muscle and burning fat. Switch off between IsaPro and plant-based IsaPro as a great way to flex your diet, or choose your all-time favorite and show your loyalty.
