

The Benefits of Biohacking

From Isagenix

Disclaimer: Isagenix products are not intended to diagnose, treat, cure or prevent any disease.

One day, you wake up, you're an adult and everywhere you look, people who you know aren't feeling well, perhaps even you're not feeling well.

Burnt out, brain-fogged, sore, stiff, slow, unfocused, lethargic, sleepless, anxious, depressed, sick, uncertain, ambivalent, watching people pass away younger, watching people suffer in pain as they get older. And we're not here to bum you out. We just get it, because unfortunately it's become normalized.

You're about to discover how to make optimizing your body and mind simple. This is your gateway to leading edge innovation combined with the conscious selection and sourcing of the cleanest ingredients, allowing people just like you to find their way to increased regeneration, detoxification, longevity and overall performance. We are going to show you how to make biohacking easy, accessible and sustainable so that you can experience greater vitality, energy, focus and overall mental well-being.

But first, what is biohacking and why should you do it or even care about it?

Before we get to that, keep reading. Sometimes, in order to move forward, we need to take an honest look at where we are and where we've been. From there, we can begin to create a new future.

What We're Doing Isn't Working

The data, it's pretty grim. Chances are you or someone you know falls into one of these 5 categories or will inevitably fall into one of them. Doesn't seem right, does it? You're also not alone in struggling to feel your best. According to Science Daily, 95% of the world's population has health problems, with over 1/3 having more than 5 ailments. What the actual...? And if you're in your feels reading this, good, we are too! It's why we do what we do. It makes zero sense that we're living longer than we've ever lived, yet are sicker than we've ever been.

1

Heart Disease

#1 cause of death (Up 17% in last 10 years - source: AHA)

2

Cancer

Cancer research in the UK finds that 1 out of every 2 people will get cancer in their lifetime. By far, the biggest risk factor for most cancers is simply getting older.

Source: Cancer Research UK

3

Metabolic Syndrome & Obesity

1 in 3 adults have metabolic syndrome according to NIH. 49% of adults have obesity (tfah.org)

4

Autoimmune Disease

According to the NIH, autoimmune diseases are a leading cause of death and disability. Genetics, diet, infections and exposure to chemicals are likely the cause.

5

Brain Health

Roughly 1 in 5 adults suffers from a diagnosable mental disorder in a given year .

As of 2020, there we 55 million people living with dementia worldwide. (alzintl.org)

How Did We Get Here?

Of course we're responsible for our own choices and maybe you're making an effort, but at the same time, it's an uphill battle. We live in a world where rapid advancement over the last 100 years has come at a steep price. Just read some of facts below and it's no wonder why so many people are suffering from toxic overload. We went from thousands of years of processing naturally occurring foods, environments, water, etc to expecting our bodies to process...well...poison. All of this leads to **STRESS** on the system

Factory Farming

"Food coming from factory farms often contains harmful bacteria, pesticide residue, antibiotics and artificial hormones, all of which can be harmful to consumers. Factory farms and industrial agriculture also impact human health through air, water and soil pollution." (source: pamona.edu)

Plastics

Exposure to plastic is linked with severe adverse health outcomes such as cancers, birth defects, impaired immunity, endocrine disruption, developmental, hormone related cancers and reproductive effects etc.

Pharmaceuticals

A Harvard ethics probe found about 128,000 people die from drugs prescribed to them. This makes prescription drugs a major health risk, ranking 4th with stroke as a leading cause of death.

Toxins

Synthetic pesticides, herbicides, insecticides, fungicides introduced in 1930's and contaminates air, water, soil and food. Examples of known chronic effects are cancers, birth defects, reproductive harm, immunotoxicity, neurological and developmental toxicity, and disruption of the endocrine system.

How Did We Get Here?

Speaking of stress, guess what stress causes? That's correct, inflammation. And when the body is inflamed and can't process toxins, as we've seen, bad things happen. And why wouldn't you be stressed? It's wild out here friend. Take a look below at some of the major contributors to the things that are impacting our physical and mental health on a day-to-day basis.

Workplace Dissatisfaction

4.3 Million Americans have left their jobs since 2021 with another 40% considering leaving their jobs in next 3-6 months

Civil Unrest

50% of Americans anticipate a civil war in the near future

Financial Stress

Less than 25% of Americans are debt free 40% of Americans couldn't afford a \$1,000 emergency Inflation at highest rate in over 40 years

Global Health Crisis

Covid-19 caused a world-wide shutdown, millions passed away

What Is Biohacking?

Ok, enough of the problems. Let's talk about solutions, because there are solutions and there is reason to be more than hopeful.

Right now, there is a massive uprising of people who are fighting against the current system by taking ownership of their own physiology.

Billions and eventually trillions of dollars will make up what's known as The Longevity Economy as a means to bring a different path to "wellness" than our current "health"-care system allows for.

Which brings us back to that word "Biohacking." Ultimately, through a combination of things you can help yourself to not just handle today's elements, but you can quite literally put yourself in a position to be the same age ten years from now, as you are today.

Wait. What?

That's correct, the strategies you're going to have access to can help turn back time on what's happening inside your body. Scientists refer to this as your "Biological Age." Meaning, you might be 38 years old on the outside and chronologically, but inside you could be 22 years old. It sounds like magic, but the only thing we're going to make disappear is the junk your body has been storing.

Three Tenets To Reverse Biological Aging

1

AUTOPHAGY

Autophagy allows your body to break down and reuse old cell parts so your cells can operate more efficiently. It's a natural cleaning out process that begins when your cells are stressed or deprived of nutrients this can most effectively be accomplished through Intermittent fasting (which PS will also help you burn any unwanted fat you're holding onto).

2

MITOCHONDRIA FUNCTION

Known as the “powerhouses of the cell,” mitochondria produce the energy necessary for the cell's survival and functioning. Through a series of chemical reactions, mitochondria break down glucose into an energy molecule known as adenosine triphosphate (ATP), which is used to fuel various other cellular processes.

3

STRESS REDUCTION

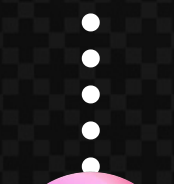

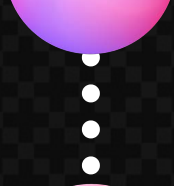

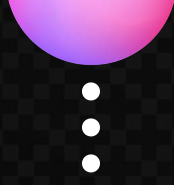

Stress when left unchecked can play a part in problems such as headaches, high blood pressure, heart problems, diabetes, skin conditions, asthma, arthritis, depression, anxiety, and more.

A Simple System

There is one issue with accomplishing the 3 tenets though: It can be incredibly expensive and inconvenient. From \$10,000++ IV therapy bags and stem cell transplants, to \$50k+ Artificial Intelligence options, until recently accessible choices for the everyday consumer just haven't really existed, at least not like they're about to be presented to you. At the end of the day, cold plunges and saunas and red light therapy all have tremendous value, but like the saying goes, you are what you eat. Even Hippocrates, the OG of this conversation said: "Let food be thy medicine." So, what if you could have access to the exact vitamins, nutrients, minerals and protocols that your body is craving, delivered to your doorstep in a simple to use daily system?

Let's Drown Out All That Noise

Now, we know there are a lot of products on the market. For 20 years, Isagenix has been committed to bringing the cleanest, purest, highest quality products to market with our 8-Step Quality Assurance System. This means you're getting access to daily wellness solutions that are more stringently tested than products which are certified as "Organic." PS Just between us chickens, it isn't uncommon for us to reject "organic" raw materials, because they don't meet our specs.

-  **Step 1** RESEARCH & SELECT RAW MATERIALS
-  **Step 2** IDENTIFY SUSTAINABLE SUPPLIERS
-  **Step 3** PERFORM QUALITY & SAFETY AUDITS
-  **Step 4** MEET OR EXCEED GUIDELINES (BEYOND ORGANIC)
-  **Step 5** TEST MATERIALS FOR IDENTITY, STRENGTH, PURITY* & ORGANOLEPTIC PROPERTIES
*INCLUDES TESTING FOR MICROBIAL ACTIVITY, HEAVY METALS, AND PESTICIDES, INCLUDING HERBICIDES AND FUNGICIDES
-  **Step 6** SEND FORMULAS TO PRODUCTION
-  **Step 7** OVERSEE QUALITY & FINISHED PRODUCTS
-  **Step 8** APPROVE FOR DISTRIBUTION IN 20+ COUNTRIES

The Isagenix Answer

As you read through the individual products, what you'll find is that they each go to work on different areas of your body (but work together synergistically and provide the nutrition side of how to achieve the tenets (autophagy, mitochondria function and stress reduction). Oh and they also offer a slew of other benefits like focus, cognitive and memory enhancement, immune support, hair, skin and nail health, gut/brain support, fat burning and more.

Whole Blend Shakes

- Grass Fed RAW Undenatured New Zealand Whey
- Plant Based option available (mung bean, fava & pea proteins)
- Nutrients from raw organic fruits & veg
- Meal replacement or post workout
- Supports satiety, protein pacing and weight management
- Use as a meal replacement, post work out, or whenever you'd like.

Collagen Elixir

- 5g marine collagen peptides
- Sourced from wild fish caught in cold Norwegian Sea
- Supports gut, joint, organ, hair, skin & nail health
- 1-2 per day, anytime (best apart from food)

Adaptogen Elixir

- Reduces stress on the body
- Ingredients are known to support immune system, increase energy, reduce fatigue, improve lymph function, regulate blood pressure, help cells grow & function, improve liver function, support heart healthy, manage depression, anxiety & other symptoms

Nootropic Elixir

- Can improve focus & memory
- Ingredients known to have neuroprotective effects, boost brain power, prevent memory loss and mental decline
- Contains caffeine from green tea

The Isagenix Answer

NAD+

- Repairs mitochondrial function
- Known benefits of NAD: heart health, boosts energy, metabolism, reduces inflammation, speeds recovery, decreases pain, sharpens eyesight, improves hearing, reduces craving, mitigates withdrawal symptoms, assists weight loss, increased mental clarity, better memory, concentration, mood .
- NAD+ = Fountain of youth

Bone Broth

- Excellent source of collagen, protein & amino acids
- Broth from grass fed beef bones
- Benefits gut, joint, organ health
- Excellent a sippable beverage or as beef or chicken stock in recipes

Organic Coffee

- Shade grown
- Low Acidity
- Coffee can stimulate production of adrenaline & induce flow states
- Increase energy
- "According to science, "Coffee repairs your DNA, calms your body, and helps prevent cancer, Type 2 diabetes, and Parkinson's disease.""

Cleanse For Life

- Aloe vera based drink to support intermittent fasting (to promote autophagy)
- Packed with trace minerals and adaptogens to help body burn fat, manage stress while curbing cravings
- Use to support 24 hour fasting windows (cleanse days)
- Helps the body reduce its toxic load

Clinical Studies

Speaking of results, there's another saying that matters here: Documentation, beats conversation. We don't believe in quack science or fad diets, so we put our products and systems to the test in third party controlled studies (here are 5 of the 16 studies we've had peer reviewed and published) and the outcomes have been nothing short of remarkable. Oh, we also sign contracts that allow the research body overseeing the study to publish the results regardless of whether or not they're in our favor. Thus far, as you can see, that hasn't been an issue #undefeated.

Performance Men's Study

Key findings after 12 weeks comparing increased protein with Isagenix products vs. lower protein intake with supermarket brands

Skidmore College - Publication in: Growth Hormone & IGF Research

- 2x more upper body strength
- 4x more aerobic (cardio) power
- 14x more lower-body explosive power
- 3x greater low back & hamstring muscle flexibility

Performance Women's Study

Key findings after 12 weeks comparing increased protein with Isagenix products vs. lower protein intake with supermarket brands

Skidmore College - **Publication in:** Nutrients

- 5x more body explosive strength and power
- 2x more core and upper body strength
- 5x less arterial stiffness (measure of cardiovascular health)

Weight-Loss & Weight-Maintenance Study (Phase 1)

Key findings after 12 weeks of following the Isagenix Weight-Loss System (Skidmore College)

-  20% reduction FAT MASS
-  9% increase lean bodyweight
-  cardiovascular markers significantly improved
-  33% increase in total toxins (PCBs) released and 25% decrease in oxidative stress

Weight-Loss Study

Key findings after 8 weeks of following the Isagenix Weight-Loss System compared to a heart healthy diet (UIC)

-  as much visceral (abdominal) fat loss
-  better improvements in cardiovascular markers
-  56% more weight loss
-  **Publications in:** Nutrition Journal and Nutrition and Metabolism

Weight-Loss & Weight-Maintenance Study (Phase 2)

Key findings after 52 weeks comparing weight maintenance using the Isagenix System vs. heart-healthy diet

Isagenix System

- Maintained weight loss
- Continued to lose body fat and abdominal fat
- Continued to increase lean body mass percentage
- Maintained improved cardiovascular health markers

Heart Healthy Diet

- Maintained weight loss
- Continued to lose body fat and abdominal fat
- Continued to increase lean body mass percentage
- Maintained improved cardiovascular health markers

Now, we really didn't want to include this part, because omg has social media become flooded with (questionable) before and after photos, but ultimately we have 20 years of results and results don't lie. More importantly, being healthy is an inside game that gets projected to the outside world in the form of lean muscle mass, clear skin, bright eyes, reduced wrinkles and of course, huge happy smiles, because feeling confident and smiling tend to go hand in hand.

The reality is that:

Life is easier when you're healthy.

Life is easier when you're able to focus.

Life is easier when you feel good in your body.

Life is easier when you aren't achy and in pain all the time.

Life is easier when you have energy.

Life is easier when you are performing at your best.

And the ability to have those things occurring in your life, are simply a function of the choices you make physically, mentally, emotionally, spiritually and intellectually.

And now we find ourselves at the end of what could be your new beginning. What you're going to find are two different options to start your path to longevity. What you'll also see is that all of our products come with a 30-day money back guarantee. So what's next? Simply review the two packs and get back with the person who shared this information with you on how you'd like to start.

That's it. No hard close, just an invitation to consider what it would mean if you were to take complete ownership of your mind and body.

Thanks for reading this far. Oh one more thing, ultimately we know that what we have can make a positive impact for years to come in your life, but if you decide to not do our thing, please...do something.

Introducing THE BIOHACK STACKS

THE STACK

- (2) Canisters Whole Blend Shake (28 meals)
- (1) Box Collagen Bone Broth (15 count)
- (3) Boxes Collagen Elixir (30 count)
- (3) Boxes Adaptogen Elixir (30 count)
- (2) Boxes Nootropic Elixir (20 count)
- (1) NAD (60 count)
- (1) Canister Cleanse For Life (2 IF Days)
- (1) Bag Organic Coffee

30 Day Supply **\$534**

(free shipping & 30 day money back guarantee)

THE BUNDLE

- (2) Canisters Whole Blend Shake (28 meals)
- (1) Collagen Bone Broth (15 count)
- (3) Boxes Collagen Elixir (30 count)
- (2) Boxes Adaptogen Elixir (20 count)
- (1) Canister Cleanse For Life (2 IF Days)

30 Day Supply **\$350**

(free shipping & 30 day money back guarantee)
