A close-up photograph of a woman with voluminous, curly dark hair. She is smiling broadly, showing her teeth, and looking slightly to the right. She is holding a clear glass filled with orange juice with both hands. The background is bright and out of focus, suggesting an indoor setting with large windows.

Welcome to your guide for the next 30 days!

When you make good nutrition and healthy habits your focus, results follow.

This simple, sustainable system helps you lose weight (and keep it off!), fight cravings, increase lean muscle mass, improve nutrition, stress less, sleep better, and so much more. No matter what your health goal is for the next 30 days, this system can help you get there!

Results backed by science

Helping hundreds of thousands of people around the world, this Isagenix System is validated through multiple research studies conducted by independent and respected universities. The collective results reinforce what the before and after images show—this system works!

With multiple peer-reviewed publications in leading nutrition and health journals, this system is shown to be safe and effective for:

- Weight loss
- Overall and visceral body fat reduction
- Long-term weight management
- Better adherence to a monthly routine
- Lean muscle mass retention
- Improvements to cardiovascular health
- Favorable effects on the gut microbiome
- Increased toxin release from fat cells

Key findings after 8 weeks of following the Isagenix System compared to a heart-healthy diet:

56%

more weight loss

47%

more fat loss

**Better improvements
in cardiovascular
health markers**

2×

**as much visceral
(abdominal) fat loss**

Skidmore College found that individuals using the Isagenix System for a year:

Continued to lose body fat and abdominal fat

Maintained improved cardiovascular health markers

Continued to increase lean body mass percentage

Maintained weight loss

*Weight loss should not be considered typical. A study showed an average weight loss of 24 pounds after 12 weeks. Participants took part in a calorie-controlled regimen of Shake Days and one Cleanse Day per week. For more information on the study, see IsagenixHealth.net.

Portion control

Choose the correct portion size for your evening meal—calories can be adjusted based on the outcome you're trying to achieve.

Pick a lean protein

Providing your body with a quality source of protein at each meal will help you feel satisfied longer while supporting muscle growth and metabolism. Pick 4-6 ounces of your preferred lean protein like fish, chicken, eggs, beef, or your favorite plant-based protein. This should fill about a quarter of your plate.

Fill up on the good stuff

Fill up on leafy greens (kale, spinach), complex carbs (brown rice, sweet potatoes, and fiber-filled veggies like broccoli, carrots, and onions), and heart-healthy fats (avocados, olive oil).

Meal prep for success

It's easier to stick to a routine when your meals are planned out. Make your weekly shopping list to ensure you have the ingredients you need on hand. Planning meals in advance takes the stress out of trying to decide what's for dinner every night and will end the temptation for takeout when you're feeling tired at the end of a long day.

Follow the Shake Day routine

Don't skip any meals, shakes, supplements, or snacks. Proper nutrition is key to achieving your goals.

Shake Day tips for success

1. Upgrade your shakes

Shake things up! Try adding different fruits or nut butters to your IsaLean Shakes for a delicious, nutrient-dense treat.

2. Let your body adapt

Your daily dose of stress-soothing adaptogens is essential!* Try taking your Adaptogen Elixir or Ionix® Supreme at different times of the day to see what works best for you.

3. Focus on how you feel

Instead of staring at the scale, focus on how you look and feel. Do your clothes fit differently? Are you sleeping better? Are you feeling less bloated? Have grace with yourself as you build new habits.

4. Don't go hungry

Just because you're doing a reset doesn't mean you should stop listening to your body. Small servings of sliced water-based fruits or vegetables like cucumber or celery, or some extra protein like a handful of almonds can go a long way.

CLEANSE DAY

Cleanse your body on a cellular level

About **12 hours** after your last meal, your body will begin to rely on stored nutrients. This means you'll start burning stored fat for energy.

At around **18 hours**, your body will start to increase its ability to stimulate lean muscle growth and release toxins that have long been trapped within your fat cells.

About **24 hours** after your last meal, your body will begin to experience increased autophagy. This is a natural process that replaces old cells with new, regenerated cells. This helps your body feel renewed, energized, and reset.

Customize your reset

Choose between one Cleanse Day per week or two consecutive Cleanse Days for two weeks out of the month, for a total of four Cleanse Days per month. Listen to your body to decide which one is right for you.

One Cleanse Day Per Week

1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30					

Two Cleanse Days Per Week

1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30					

Cleanse Day tips for success

1. Use reminders

When creating a different lifestyle, it can be hard to incorporate every small, new detail. Using alarms or reminders throughout the day can help the system better fit into your day and keep you on track.

2. Keep moving

Modify your workout based on your energy level. Consider starting with light yoga, walking, or gentle stretching.

3. Stay hydrated

A reset flushes toxins out of your body. Water is the vehicle that helps get them out. Drinking a healthy amount of water, especially on a Cleanse Day, is essential.

4. Keep your energy up

If you need an extra boost, plain coffee or tea is perfectly fine to have during your reset.
